KAMAGRA® from Kamagra.one Leaflet & Frequently asked questions:

KAMAGRA® from Kamagra.one: KAMAGRA® from Kamagra.one are sexually stimulating tablets based on very powerful natural herbs. The tablets are developed with the intention that the tablets can give a reinforcing effect to the feeling of falling in love, loving, having a sexual experience and an "orgasmic state of experience".

Dosage & use: Depending on the desired effect one can (preferably on an as empty as possible stomach) take 1 tablet with water and / or juice. For a stronger effect you can increase the dosage by 1 more tablet, to a maximum of 2 tablets per 24 hours. (Note: do not exceed the maximum dose.)

Side effects: Unlike the chance of experiencing pure orgasmic enjoyment in a natural way, no (negative) side effects are known. The unique recipe is very thorough, long-term & clinically tested. (NB: Because there are always people who regularly amaze science, the advice is always to listen carefully to the feeling / body after ingestion.)

More energy

Increase in pleasure Cheerful view of the world Strong & long-lasting erections More sex drive Clarity More power during fitness and other sports Strong decrease in menopausal symptoms Increase in feelings of love

Regulatory warning:

Do not use during pregnancy and / or breastfeeding, Do not use with; high blood pressure, cardiovascular disease, kidney and / or urinary tract disease, diabetes, enlarged prostate and / or with the use of drugs and M.A.O. inhibitors. When in doubt, consult your doctor. A nutritional supplement is no substitute for a varied diet.

Consult a doctor if you have any doubts.

Frequently asked Questions;

► **What is Herbal? Herbal stands for herbs or spice mixture. It consists of a very powerful & very unique blend of various natural herbs. The herbs from KAMAGRA® from Kamagra.one are all carefully selected and of a very high quality. This combination - the high quality, our experience & a unique recipe - has the potential to create a unique experience. (Note: this varies from person to person.)**

► **If the effect lasts too long, what then? If you have taken (too) much against the advice, as a result of which the effect lasts too long, then this is also the reason that the effect lasts too long. Should you nevertheless get the feeling that the effect is too intense, take Then contact your doctor.**

Is it possible to combine KAMAGRA® from Kamagra.one? It has actually been found that the combination of medicines with stimulants, the combination of alcohol with stimulants, the combination of one stimulant with the other stimulant * (* depending on which products (chemical / non-chemical) are combined), are negative combinations . Alcohol (especially with large quantities) always has a narcotic effect on the brain. The entire body is in contact with the brain. Therefore, keep this in mind if you are using Kamagra.one KAMAGRA® in combination with alcohol. If you use medication, you must take into account how it works and the (often very severe) side effects of those medication. Drugs / stimulants can have a reinforcing effect, while the other means does the opposite. The best advice that can be given is: do not combine.

Is the Kamagra.one KAMAGRA® detectable in my urine? Because only natural ingredients are used, the body absorbs them much better. The substances that the body does not absorb or rarely absorb, are minimal and therefore practically non-measurable in the urine. This is in contrast to other chemical / unnatural agents that are difficult for the body to absorb and can therefore always be found in the urine. That which the body cannot absorb must be removed again and that will initially always be through the urine.

Who is KAMAGRA® from Kamagra.one suitable for? For adults. KAMAGRA® from Kamagra.one can be used individually. If both partners take the product, the sex experience is experienced as very positive and the potential of the products can be shown to full advantage.

What are the benefits of KAMAGRA® from Kamagra.one? The list of benefits is long! Taking into account the fact that every person is unique and so is the effect of KAMAGRA® from Kamagra.one unique for everyone. The most common very positive effects that one could experience at a glance;

- *Intense orgasms*
- *Super sensual vibe*
- *Groundbreaking, fewer blockades*
- *Feeling happy during and after sex*
- *"Never knew that I could enjoy it so much and dare to try new things"*
- *"Great to have another odol in the morning"*
- *Less hangover after a tough weekend*
- *"Go with the flow", fewer inhibitions*
- *More energy and more endurance*
- *"Often too tired to start having sex. After trying the Love Tablets, that is a thing of the past "*
- *"My partner has been ill for a longer period of time and was therefore very low in her (sexual) energy. After having used the Love Tablets several times, she got more and more positive (and sexual) energy "*
- *"Felt more attracted to my partner, as if it were the first time"*
- *"Captured during a festival and completely absorbed in music"*
